

## Software Update

### VDO TPMS Pro & VDO TPMS Go

Dear Sir or Madam,

with this product information we would like to inform you about a new software version, which is now available via the VDO WebTPM application.

#### **New SW versions:**

- VDO TPMS Pro: DV1-33
- VDO TPMS Go: HV1-21

#### **Highlights**

- New WIFI function for the TPMS Pro, enabling users to update the device software wirelessly without a PC
- Brand new models added
- Updated OE sensor information
- Updated relearn information
- New makes added
- Updated aftermarket sensor coverage

**Note:** Before updating the device, make sure that you have the latest WebTPM software ([https://www.vdo.de/media/747101/vdowebtpm\\_v815.zip](https://www.vdo.de/media/747101/vdowebtpm_v815.zip), version 8.15). Without the latest version, the update will not be completed. If you need help updating WebTPM, contact our technical support: [autodiagnos@vdo.com](mailto:autodiagnos@vdo.com).
